Professional Experience

CodeREV & Education Unlimited - San Francisco, CA   **May 2018 - Aug. 2019**

CodeREV - Director, Mercy High School
- Directed STEM summer camp; responsible for operations, logistics, and customer service
- Taught computer science fundamentals including variables, inheritance, loops, conditionals, classes, functions, and basic Java
- Managed performance and development of fellow camp instructors through feedback, educational training, and new teaching tools

Education Unlimited - Web Dev Instructor, UC Berkeley & Stanford
- Taught web development fundamentals, including HTML, CSS, JavaScript, Git, APIs, and jQuery to prospective middle-school and high-school students on university campuses
- Provided valuable mentorship and feedback to students and parents

Afterpay Touch US - San Francisco, CA   **Oct. 2018 - Apr. 2019**

Software Engineer - Merchant Services
- Integrated Afterpay services into 700+ e-commerce stores across multiple CMS platforms including Shopify, BigCommerce, Salesforce Commerce Cloud, and WooCommerce
- Worked with internal Sales and Support teams to efficiently manage merchant pipeline
- Triaged, repaired, and took ownership of merchant support issues with Afterpay integrations
- Developed new scripts and logic for merchant-requested specs with relevant documentation
- Planned and implemented new systems and workflows to automate routine company tasks

Castlight Health - San Francisco, CA   **Nov. 2017 – Jan. 2018**

Implementation Support Engineer - Jiff
- Assisted the Jiff Implementation team QA year-end rollover for client health plans
- Identified and triaged roughly 50 UX and implementation issues, coordinated through JIRA
- Worked closely with Lead Implementation Engineer to survey Jiff's largest clients

Fitbit - San Francisco, CA   **Jul. 2017 – Oct. 2017**

Associate Test Engineer - Firmware Team
- Provided reliable data by executing specific testing protocols and recording bugs and errors
- Identified and recorded over 15 UX and firmware issues with details to help triage
- Acted as liaison between test and firmware teams, trained new testers

Freelance Web Developer - San Francisco, CA & Franklin, TN   **Feb. 2017 – Present**

Steamship Beverage Catering - https://www.steamshipbev.com
- Developed a Squarespace consumer site for a small coffee catering business
- Designed and developed company assets from scratch using Adobe Photoshop / Illustrator
- Aggregated and integrated relevant social data from Instagram's API

Flywheel Coffee Roasters - http://flywheelcoffee.com

- Designed and created a new logo from old assets using Adobe Photoshop / Illustrator
- Leveraged customization of Shopify's platform through modification of .liquid template files

Education

General Assembly - San Francisco, CA   **Jan. 2017 – Apr. 2017**
Certificate in Full-stack Web Development
- Developed full-stack web apps in MEAN stack and Ruby on Rails from ideation to completion
- Quickly learned new tech, best practices, and team-based agile development
- Studied and manipulated common data structures and algorithms
- Utilized peer and instructor code reviews

Columbia State Community College - Columbia, TN   **Aug. 2013 – Dec. 2015**
Pre-Engineering Student
- Courses included Calculus, Programming in C++, and other maths and sciences
- Active STEM Club member
